

# Website Proposal

Two build tiers, priced separately, plus optional add-ons — choose the level that fits the launch.

Both tiers are fully built and live for review at the links below. Tier 1 is a complete, production-ready luxury travel site with cinematic scroll animation throughout. Tier 2 builds on everything in Tier 1 and adds a distinct, more elaborate flagship experience — an animated flight-path journey across a live map, bespoke layouts per destination, and an interactive boarding-pass enquiry form.

## TIER 1 — STANDARD

### The Signature Site

**From AED 7,000**

*One-time build cost. Final quote confirmed after scope sign-off.*

- Full-bleed cinematic video hero with parallax and letterbox reveal
- GSAP + Lenis scroll choreography throughout, mobile-optimized
- Horizontal pin-scroll destinations gallery (native swipe on mobile)
- Pinned cinematic "Chapters" crossfade section
- Illustrated gold-line "Route" map with scroll-drawn flight path
- Custom cursor, count-up stats, velocity-aware marquee
- Enquiry form with interest tagging
- Fast, lightweight build (no bloated page-builder)

## TIER 2 — PREMIUM

### The Flagship Experience

Live preview

**From AED 13,000**

*Includes everything in Tier 1. One-time build cost, confirmed after scope sign-off.*

- Everything included in Tier 1, as its foundation
- One continuous animated flight path across the entire journey
- Live dotted world-map background with landing "pulse" bursts
- Four destinations, each with its own distinct visual layout
- Gold/white theme that switches per destination on arrival
- Interactive boarding-pass enquiry form with tear-off submit animation
- Positioned as the top-tier, most memorable option to present to VIP clients

*Note: Tier 2's price reflects the added engineering — a second full animation system, custom canvas rendering, and per-destination bespoke layouts — on top of the Tier 1 build it's based on.*

OPTIONAL ADD-ONS

Extend either tier

These sit on top of either tier and can be added at launch or later. Priced separately since scope varies by feature depth.

| Add-on                        | What it does                                                                                                                                | Starting price               |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|
| AI Concierge / Chat Assistant | A trained assistant that answers guest questions and routes serious enquiries — on-brand tone, available 24/7.                              | From AED 3,500 + usage costs |
| Sanity CMS Integration        | Edit destinations, journal entries, and imagery yourselves without touching code — structured content model built around the site's design. | From AED 3,000               |
| Email Support & Automation    | Enquiry form wired to real inbox routing, branded auto-replies, and internal notification workflows.                                        | From AED 1,200               |
| Arabic / English Toggle       | Full bilingual site with RTL layout support — common expectation for the UAE market.                                                        | From AED 2,500               |
| Booking & Payment Integration | Deposit collection or full booking flow tied to your payment provider of choice.                                                            | From AED 4,500               |
| SEO & Analytics Package       | Technical SEO pass, structured metadata, and a dashboard for traffic and enquiry tracking.                                                  | From AED 1,800               |
| Care & Content Retainer       | Ongoing updates, monitoring, and small content changes handled monthly.                                                                     | From AED 800 /mo             |

All figures above are starting estimates for a UAE-based engagement, intended as a starting point for discussion rather than a fixed quote — final pricing is confirmed once scope, content, and timeline are agreed. Both tiers are live for review now; links will be updated to the production domain at launch.
